

PRICE INCREASE ANNOUNCEMENT

November 27, 2024

**Minimum 10% Price Increase Effective With Deliveries On
or After January 6, 2025**

After a protracted slide in steel prices, the steel market is beginning to show resiliency. Steel costs are rising and demand is strengthening. Due to this changing dynamic, MarinoWARE will raise prices a minimum of 10% on all steel products effective with deliveries on or after January 6, 2025.

With pending trade cases you should be advised that additional increases are likely, and job quotes will reflect the higher escalators.

New price pages will be distributed in the next few weeks.

MarinoWARE will honor all quotations activated by the ["Quote Policy,"](#) which is published on our website www.marinoware.com. Non-activated quotes will be canceled and deleted after thirty days.

Thank you for your continued support!
